PRINTERON FOR GOOD

PrinterOn® pioneered secure mobile printing in 2001 and today is a world leading Mobile Printing Platform for enterprise, education and public printing locations. PrinterOn enables secure printing for smartphones, tablets and laptops from anywhere to any PrinterOn mobile printing location in the world. Secure printing can be done using the PrinterOn for Good mobile printing apps for iOS or Android, or via email, web upload or Windows driver.

PrinterOn also has 10,000+ public printing locations worldwide in 120+ countries. With the capability to handle virtually any workflow - including integration with SAP® and Oracle™ or major print management software — broad mobile device support and virtually infinite scalability, only PrinterOn can truly say “Print Simply Anywhere”®. PrinterOn is wholly owned by Samsung.

SECURED BY GOOD

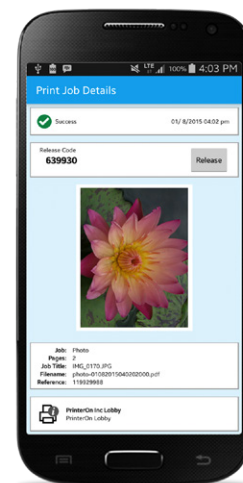

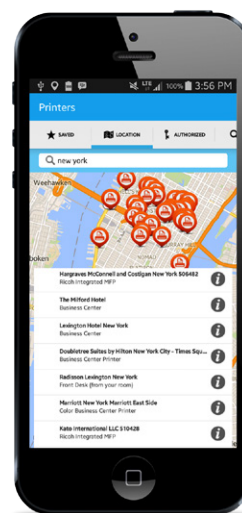

Leverage your investment in the Good Dynamics® Secure Mobility Platform by giving your users secure print from anywhere. PrinterOn for Good is a Good Dynamics-enabled mobile app available for iOS and Android with benefits to IT and users alike.

BENEFITS FOR IT

- Extended capabilities include secure network connectivity, remote configuration, geo-fencing

BENEFITS FOR USERS

- Simple to use
- Print from anywhere back to the office from any device as well as laptops/PCs
- Same printing experience whether in the office or away
- Extends mobile printing methods for different workflows including mobile apps, email, web upload, driver

NETWORK ARCHITECTURE

WHY PRINTERON FOR GOOD?

FEATURES OF THE JOINT SOLUTION

End-to-end mobile printing security. No documents ever leave the trusted network.

Remote Printing Capability

Corporate Office-Home Office (CoHo) Support

SAP and Oracle workflows

RELATED BENEFITS

PrinterOn security has been validated by some of the largest and most security-conscious companies in the world. It will likely meet or exceed your security policies too.

Enables secure printing from one network to another network, even if the networks are not connected to each other. Eliminates the need for costly VPN or network re-architecting.

Enables secure mobile printing to home office printers that are part of the secure corporate network without using VPN. Preserves full job authentication and accountability in existing print management systems.

Supports native integration into SAP and Oracle application workflows without changing the user experience or adding expensive and cumbersome workarounds.
