

Improve productivity and provide superior customer service with secure mobile print solutions for agents and outside sales reps.

+ Increase Security

Meet virtually any security requirement for your organization with control of user authentication, print job data encryption, transmission encryption and a variety of secure release methods at the print device.

+ Integration with MDM Solutions

PrinterOn can increase the value of your MDM/EMM platform by enabling secure mobile print through your specific solution and controlling PrinterOn mobile app deployment as well as app behavior.

+ Lower Operating Costs

Eliminate expensive personal printers that require more maintenance and consumables. With PrinterOn, every enabled printer on the network is secure. Reduce infrastructure with only one print server required on your network to run all print services.

+ Simplify Administration

The entire print infrastructure can be managed through a single location. The PrinterOn web console provides access to all settings, printers, configurations and reports making managing and monitoring simple and efficient.

+ Scalability and Flexibility

PrinterOn is a highly flexible, scalable and configurable software-based system sitting in between the application and network layers of an organization's IT infrastructure. Functionality remains the same whether deployed on premise behind the firewall, in the cloud, or as a hybrid.

+ Improve User Experience

Whether in the office or visiting a client, on a tablet or laptop, PrinterOn provides a consistent user experience which saves time, increases productivity and is easier to manage.

PrinterOn enables agents and staff to securely print from anywhere to office printers, meeting rooms or home printers.

“Our agents now have tablets so they can interact more with customers. How can I make printing easy from these devices?”

PrinterOn can provide native iOS and native Android printing without using a third-party app. Authorized nearby printers are automatically displayed making printing quick and easy.

“I require a print solution that meets the highest security standards and compliance requirements”

PrinterOn provides end-to-end security through control of user authentication, print job data encryption, transmission encryption and a variety of secure release methods at the print device.

“My agents need a way to print at the corporate office and home office (CoHo)”

With PrinterOn, you can give agents more flexibility by providing secure printing in their home office that can be tracked and accounted for centrally.

• **Mobile Device and Printer Agnostic**

Support for all printer manufacturers and mobile device types is especially beneficial in a “BYOD” environment.

• **Mobile Apps and Print Plugins**

PrinterOn mobile apps for iOS and Android are unsurpassed in their ability to allow users to find and securely print to private or public printers. The Android print plugin provides native printing without using a 3rd party app for a more natural workflow.

• **Remote Printing**

PrinterOn securely connects print requests submitted from a device on one network to physical printers on a completely disconnected network, even from desktop computers and home printers.

• **PrintWhere®: Windows Print System**

A complete secure print rendering and submission system for Windows-based devices including desktops, laptops, and Surface tablets.

• **Pull Printing**

Secure Release Anywhere™ gives users the flexibility to choose an output device at the time of print release which reduces print waste when combined with secure release.

• **Robust MDM Support**

Deep integrations with industry MDM leaders such as AirWatch, Good, and MobileIron means that you can control PrinterOn mobile app deployment as well as app behavior.
