

PrinterOn Enterprise Private Cloud Print Platform Release Notes

Enterprise 2.3.1 – PSIM 2.3 (BF)

Product Changes and Enhancements

PrinterOn's Enterprise Server provides Enterprise-grade cloud print services for Corporate, Enterprise or Education use. This private cloud solution leverages PrinterOn's years of mobile print experience to provide a complete printing solution for native mobile apps, email, web and desktop printing.

This maintenance release of PrinterOn Enterprise provides minor compatibility and reliability updates.

The following are some of the enhancements and improvements that have been made in this version of the PrinterOn Enterprise Platform.

PrinterOn Enterprise New Additions

- **Improved – Google Cloud Print Support**

Numerous improvements made to PrinterOn's Google Cloud Print support including:

- Added support for non-ascii characters in Google Cloud Print printer names.
- Improved overall reliability when PDG is installed as a standalone application.
- Addressed an issue that caused GCP jobs to stop processing and report being "queued" after a period of inactivity.
- Addressed an issue upgrading from PrinterOn Enterprise 1.9AW

- **Fixed – Email bodies and Exchange 2013**

Addressed an issue that was causing email bodies to be ignored when using PrinterOn Enterprise with Exchange 2013 in some configurations.

- **Updated – Java Runtime Version**

The JRE included with PrinterOn Enterprise has been updated to version JRE 7 update 55.
