

PrinterOn Mobile for iOS 3.3.0 Release Notes

Version 3.3.0

Product Changes and Enhancements

PrinterOn Mobile for iOS offers an integrated solution for accessing both the PrinterOn Server Platform as well as PrinterOn's global network of Public Print locations in a single unified application. PrinterOn Mobile for iOS simplifies the process of discovering and printing to all PrinterOn's services.

PrinterOn Mobile for iOS supports iOS 7 or newer.

The following are some of the enhancements and improvements that have been made in this version of PrinterOn Mobile for iOS.

Product Updates:

- **New – Secure Release Anywhere Support**

PrinterOn Mobile for iOS fully supports PrinterOn's Secure Release Anywhere pull print workflow. Users can locate, save and print to Secure Release Anywhere pools of printers. Using the PrinterOn Mobile App, users can both print to a Secure Release Anywhere pool and locate all associated release stations.

- Users may also easily view all release locations in list or map format.
- Users can directly release print jobs directly from their mobile phone to any printer in the Secure Release Anywhere Pool.
- Using the QR code scanner, users can quickly add Secure Release Anywhere Pools, or identify release stations.

- **New – iOS Force Touch Support**

This release of PrinterOn Mobile for iOS supports iOS Force Touch, allowing users to do the things they do most often, faster and in fewer steps. Users can now directly access the QR code scanner in the application using Force Touch from the iOS Home Screen, allowing them to search for printers and identify Secure Release Anywhere stations with a single touch.

- **Improved – Good Dynamics Support and Secure Release Anywhere**

Updated PrinterOn Mobile for Good Dynamics to support Secure Release Anywhere. The Good Dynamics SDK has also been updated to the latest release from Good Dynamics.

- **Improved – AirWatch Support and Secure Release Anywhere**

Updated PrinterOn Mobile for AirWatch to support Secure Release Anywhere. The AirWatch SDK has also been updated to the latest release from AirWatch.

- **Improved – MobileIron Support and Secure Release Anywhere**

Updated PrinterOn Mobile for MobileIron to support Secure Release Anywhere. The MobileIron SDK has also been updated to the latest release from MobileIron.

- **New – Optionally Suppress MDM Configuration Update Notifications**
The MDM remote configuration administrator notification has been made optional. If the adminInfo field is empty users will not be notified. This update affects AirWatch, Good Dynamics and MobileIron integrated applications from PrinterOn.
- **Improved – Additional Printer Location Details**
Additional printer location details have been added to the Details page for search results.
- **Fixed – Incorrect File Name for Good Dynamics Print Service Jobs**
Addressed an issue which caused print jobs to show an incorrect job name when received from applications using the Good Dynamics Print Service framework.

System Requirements

System Requirements

- iOS 7 or newer
- MDM integrated applications require a configured MDM server and provisioned device to work correctly.
