

## PrinterOn Mobile for Android 3.6.5 - Release Notes

---

Version 3.6.5

PrinterOn Mobile for Android offers an integrated solution for accessing both the PrinterOn Server Platform as well as PrinterOn's global network of Public Print locations in a single unified application. PrinterOn Mobile for Android simplifies the process of discovering and printing to all PrinterOn's services.

PrinterOn Mobile for Android supports Android 5.0 or newer.

### Product Changes and Enhancements:

- **Improved – Added support for Arabic** (CSOAND-1890)  
This release now supports Arabic text. When the device language is set to Arabic, the PrinterOn Mobile App UI will also be displayed in Arabic.
- **Updated – Updated MDM/MAM SDKs for Android Q** (CSOAND-1886, CSOAND-1888)  
To support the release of Android Q, the MDM/MAM-specific versions of the PrinterOn Mobile Apps have been updated to the following SDKs:
  - **PrinterOn Mobile App for Microsoft Intune:** Updated to Intune SDK v6.0.0.
  - **PrinterOn Mobile App for BlackBerry:** Updated to BlackBerry SDK v6.0.1.83.

## System Requirements

- Android 5.0 or newer  
**Note:** The PrinterOn Mobile App for BlackBerry Dynamics requires Android 6.0 or newer.
- MDM/MAM-integrated applications require a configured MDM/MAM server and provisioned device to work correctly.
