

## PrinterOn Mobile for iOS 3.5.9 - Release Notes

---

Version 3.5.9

PrinterOn Mobile for iOS offers an integrated solution for accessing both the PrinterOn Server Platform as well as PrinterOn's global network of Public Print locations in a single unified application. PrinterOn Mobile for iOS simplifies the process of discovering and printing to all PrinterOn's services.

PrinterOn Mobile for iOS supports iOS 9.0 or newer.

### Product Changes and Enhancements:

- **New – Administrative Control Over Print History** (IOS-733)  
When deploying through MDM, administrators can place limitations on the storage size for print history cache. This includes the ability to set 0MB cache, eliminating storage on mobile devices.
- **New – Administrative Control over Service URLs** (IOS-750)  
Administrators can configure multiple service URLs via MDM, allowing users to select which URL to use while also preventing them from adding more.
- **Fixed – '-' in Filename Fail to Print when using BlackBerry MDM** (IOS-752)  
Addressed an issue with the PrinterOn for BlackBerry that caused print jobs that contain a dash in the filename to fail.
- **Improved – German Translations** (IOS-760)  
Fixed a number of German translations.
- **Updated – Citrix MDM/MAM SDK** (IOS-754)  
Updated the Citrix MDM/MAM SDK to version 10.8.5.9.
- **Updated – Microsoft Intune MDM/MAM SDK** (IOS-755)  
Updated the Microsoft Intune MDM/MAM SDK to version 10.
- **Updated – MobileIron MDM/MAM SDK** (IOS-756)  
Updated the Microsoft Intune MDM/MAM SDK to version 4.0.
- **Updated – VMWare AirWatch MDM/MAM SDK** (IOS-762)  
Updated the VMWare AirWatch MDM/MAM SDK to version 5.9.6.1

## System Requirements

- iOS 9.0 or newer
- MDM/MAM integrated applications require a configured MDM/MAM server and provisioned device to work correctly.
