Cloud Printing for Public Print Locations

PrinterOn Public cloud printing is specifically designed for public printing locations that want to provide a simple, secure cloud printing service to their customers. PrinterOn is an agnostic solution so users can print from any device, any platform, on any network.

The flexibility, ease of use and quick deployment of the PrinterOn solution is what makes it such a desirable choice for hotels, libraries, small businesses and airport lounges. Choose from a variety of deployment options to suit your specific needs and bring convenient printing in a secure cloud environment to your organization.

Product	PrinterOn Public
Offering Type	Cloud printing in a shared environment
Service Location	PrinterOn Cloud
Pricing	Annual subscription per printer
Use Case	For organizations who desire a cloud-based solution and want simple management with no print servers
Ideal Customer	Best suited for hotels, libraries, airport clubs and some SMB (small, medium businesses)

How Can I Print?

Mobile Apps

Mobile printing apps for iOS and Android provide simple search and print functionality.

Email Printing

Simply send an email with attachment to the unique email address of the printer.

Web Upload

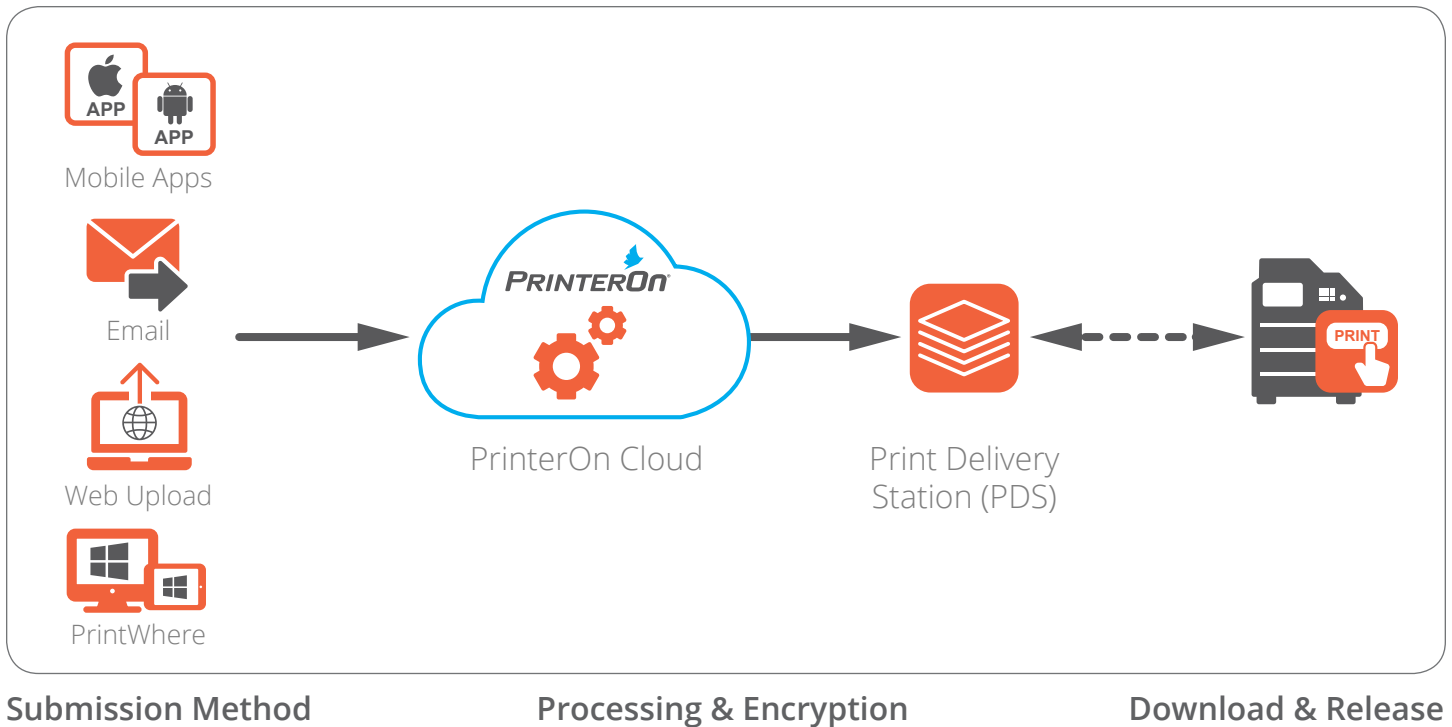

Documents can be uploaded and submitted for print via a secure web portal.

PrintWhere®

Provides File>Print workflow for Windows PCs and tablets.

How Does it Work?

Deployment & Release Options

Deployment		Release	
	<p>Printer Agent</p> <p>PrinterOn cloud printing agents are available for certain printers through our strategic partnerships with specific manufacturers.</p>		<p>Printer Interface</p> <p>Release documents directly through the user interface of our embedded printer solutions.</p>
	<p>Hardware</p> <p>The PrinterOn PrintConnect™ device connects to the local network or printer via USB adding cloud printing capability to any printer.</p>		<p>Remote Release</p> <p>Users can submit and release documents from their mobile devices using the mobile apps.</p>
	<p>Software</p> <p>Print Delivery Station (PDS) installed on a Windows PC turns any printer connected to it into a cloud printer.</p>		<p>Keypad</p> <p>The PrintValet™ keypad provides secure release capability for any printer.</p>
			<p>PC Release</p> <p>Documents can be released through a simple release client installed on any Windows PC.</p>
