# hospitality

## Increase bookings, create loyalty and free staff from handling print requests with simple, secure guest printing.

**82%**
of surveyed guests said printing services are the most important aspect of a business center.
Source: Hotelwifi.com Survey

### + Generate Revenue
Providing a guest printing service makes your property more attractive to business clients who travel frequently and require a way to continue to be productive while out of the office. More business travelers also means more meeting room bookings and associated services.

### + Lower Operating Costs
Eliminate expensive business centers that require extra staff and high cost equipment. With a PrinterOn embedded printer all you need is someone to supply paper and toner and a connection to the internet. The small footprint of many models enables you to place a printer in any discreet location.

### + Simplify Administration
The print service is easily managed through a single location. The PrinterOn web console provides access to all settings, printers, configurations and reports making managing and monitoring simple and efficient.

### + Increase Security
No more trying to print something from a guests' USB stick. With PrinterOn, no guest data ever touches your network or servers preventing unwanted viruses that can harm the entire infrastructure.

### + Be More Green
20% of all print is waste. PrinterOn prevents documents from automatically printing through a secure release code system. Forgotten documents won't be left on the printer and end up in the recycling bin.

### + Improve User Experience
Whether at the property or on their way from the airport, on a tablet or laptop, PrinterOn enables guests to be in control of their print experience from end-to-end allowing them to work the way they want which leads to higher satisfaction.

# hospitality

## "I need a simple way of providing my guests with the ability to print without staff interaction"

PrinterOn is a "self serve" printing solution that will free your staff from handling print requests from guests and let them focus on giving them superior service during their stay.

## "I need to print from my tablet when traveling for business"

PrinterOn is available at thousands of public printing locations worldwide. Many hotels provide the service to guests free of charge enabling secure print from any device and maintaining productivity when not in the office.

## "I need an affordable plug and play printing solution that doesn't take up too much space"

PrinterOn embedded printing solutions are a cost effective way of providing guests with access to printing from any device. The small footprint of many models enables location almost anywhere.

### ▪ Mobile Device and Printer Agnostic

Support for all printer manufacturers and mobile device types is especially beneficial in a "BYOD" environment.

### ▪ Mobile Apps and Print Plugins

PrinterOn mobile apps for iOS and Android are unsurpassed in their ability to allow users to find and securely print to private or public printers. The Android print plugin provides native printing without using a 3rd party app for a more natural workflow.

### ▪ Remote Printing

PrinterOn securely connects print requests submitted from a device on one network to physical printers on a completely disconnected network, even from desktop computers and home printers.

### ▪ PrintWhere®: Windows Print System

A complete secure print rendering and submission system for Windows-based devices including desktops, laptops, and Surface tablets.

### ▪ Pull Printing

Secure Release Anywhere™ gives users the flexibility to choose an output device at the time of print release which reduces print waste when combined with secure release.

### ▪ Plug-and-play Solutions

PrinterOn has partnered with industry-leading printer manufacturers to provide all-in-one mobile print solutions for any location. Many models are available to suit your specific requirements.
